Leave it to Go-Video to give your customers what they want and what they need in an entry-level price point DVD player

This solidly-built, attractive DVD player combines an outstanding feature pack with Go-Video's renowned digital audio quality and ease of use. To meet our demanding standards for quality and value we've designed this player with high performance MP3 Playback, 10 Bit Video DACs and 27 MHz Advanced Digital Filtering—plus we've added Component Video Output for the most connection flexibility and a Glow in the Dark Remote!

New technology plays mishandled or damaged discs

The Go-Video DVP855 features a new tilt-loader mechanism not found on any other player in the market. With this new technology, your customers can stop worrying about the condition of rented DVDs—this player will play practically any disc— even if it is scratched or warped. Trust Go-Video to bring the best in customer quality and convenience.
